

Tooth Angel | Kids Stories

Once there lived a girl named Anna. She was a good girl, but she will not be satisfied with whatever she has. She will expect that everything she wishes should be done.

One day when she reached the school campus she found her classmates standing in a group and discussing something. Anna approached them and asked, **"what are you all discussing about?"**.

Her friends replied to her that, **"we are all discussing tooth angel, if our teeth fall off, at night tooth angel will keep money under our pillow"**. Anna replied that **"Is it true it sounds interesting"**

Anna thought that, if a tooth angel gives money she can buy whatever she wishes. From that day Anna was waiting for her teeth to fall off. Anna was asking her parents, **"When will my teeth fall off?"**. After a few days as Anna expected her teeth fell down.

Anna took the teeth and placed them under her pillow. She fell into deep sleep and the tooth angel arrived and took the teeth and kept a coin under her

pillow. Suddenly Anna woke up and found the tooth angel standing near her bed. Anna was very happy.

Anna took her pillow and found a coin under her pillow, this made her angry. Anna said, "**Just one coin, give me more coins or else take it away,**" shouted Anna and threw the coin on the angel's face. Tooth Angel felt very sad and left the place.

After a few days Anna found all her class friends buying many toys with the coins given by the tooth angel, this made her very angry. Anna's friends advised her, "**you shouldn't have behaved like that to a tooth angel. Patience is much importance, your greed was the reason why you are like this now**"

Anna was very sad seeing her friends. And she wrote an apology letter and gave it to her friend. Her friend kept the letter under the pillow. Tooth Angel read the letter and came in search of Anna.

Anna was happy to see tooth Angel back. She felt sad for her mistakes and promised to Angel that she will not repeat it again to anyone.
